**CHINA ELECTRIC VEHICLE GROUP LIMITED**  
WORLD LARGEST CAR DEALER MARKETPLACE.

## CHINA ELECTRIC VEHICLE GROUP LIMITED

China Electric Vehicle Group Ltd. (referred to as "EV4S") was established in 2014 through a joint venture of several Chinese electric vehicle manufacturers, dealers, and supply chain companies. EV4S is a large-scale enterprise primarily focused on automotive ecosystem services. Its business scope spans six key areas: vehicle sales and aftermarket services, logistics services, ancillary services, environmental protection and renewable resources, leasing services, and international business. The company's foremost objective is to propel Chinese electric vehicles onto the global stage for customers and accept customization in any quantity.

EV4S relies on a strong supply chain and logistics system to focus on the import and export services of electric vehicles, providing customers with comprehensive "Door To Door" solutions. Through general import and export trade and bonded warehouse services, the company is committed to meeting customer needs timely and accurately.

The core team of EV4S has over twenty years of industry experience and adopts a professional and efficient operational model to provide high-quality services to customers.

#### ● Global Circulation:

The traditional car dealership model is limited by national boundaries, vehicle sources, and buyers, making it difficult to achieve large-scale operations. EV4S, through the high integration of online and offline channels, has realized cross-regional transactions and circulation on a global scale.

#### ● Vast Vehicle Sources:

EV4S has broken the geographical limitations of traditional dealership models by collaborating extensively with automobile manufacturers and dealers nationwide. This enables a rich selection of vehicle sources, promoting and realizing the global transaction and circulation of electric vehicles.

#### ● Experienced Business Team:

EV4S boasts an experienced business team capable of anticipating the development trends in the electric vehicle industry. The team is dedicated to providing customized, professional solutions for clients. Their strong expertise, pragmatic approach, and exceptional service exceed expectations, earning the trust and praise of customers.

The EV4S service team is well-versed in the art of service. With years of experience tailored to the characteristics of the electric vehicle industry, they have established a rigorous and efficient service system. This system covers the entire process, including vehicle inspection, financial services, and logistics distribution. Our professional, attentive, efficient, and reliable approach has earned the trust of customers.

#### ● Corporate Philosophy:

EV4S adheres to the corporate philosophy of "People-Oriented, Integrity-Based, Innovation-Driven." The company is committed to maintaining integrity and pragmatism, valuing partnerships, and achieving mutual benefits. Encouraging reform and innovation, EV4S explores organizational change and new market trends, driving development through innovation and advocating for green sharing.
